REVERSION OF AUTHORITY MEMORANDUM

Re: Lawful Termination of Temporary Custodianship and Restoration of Intellectual Property Control to 50501 Inc.

To Whom It May Concern:

This memorandum formally outlines the legal reversion of authority over the federal intellectual property associated with the grassroots movement known as 50501, specifically including the following active trademark applications:

- Serial No. 99122369 – Mark: “50501”
- Serial No. 99122956 – Mark: “50 PROTESTS. 50 STATES. 1 MOVEMENT.”

The purpose of this memorandum is to clearly establish that:

1. The temporary custodianship granted to Parker [REDACTED] is no longer legally valid, and
2. Full and rightful stewardship of the 50501 intellectual property has reverted to **50501 Inc.**, under my direction as President and legally authorized representative.

I. BACKGROUND

On April 17, 2025, a Letter of Intent was issued outlining a path for structural reorganization and stabilization of the 50501 movement. This included establishing a compliant, nonprofit framework under new legal stewardship.

On April 18, 2025, a document titled “Statement of Incorporator Withdrawal and Temporary Custodianship Affirmation” was executed and signed by Joseph [REDACTED] (the prior incorporator of 50501 Inc. in Virginia), appointing Mr. Parker [REDACTED] as a temporary custodian of the 50501 trademarks and related intellectual property.

That document explicitly stated that the custodianship was granted:

"on a temporary and good-faith basis for the express purpose of fulfilling the structural realignment outlined in the Letter of Intent..."

and that: *"Mr. [REDACTED] shall not make any alterations, transfers, releases, or abandonment filings regarding this intellectual property unless expressly authorized in writing by both the prior incorporator and the successor fiduciary."*

II. CONDITIONS FOR REVERSION

The same document further stated that Parker [REDACTED]'s custodianship would terminate upon the earliest of the following:

1. The resumption of corporate standing by 50501 Inc.,
2. The formal appointment of a permanent fiduciary, or
3. The election of a new board or legally filed proxy.

As of April 26, 2025, the following events have occurred:

- 50501 Inc. was lawfully reincorporated in the District of Columbia, with I, Joshua [REDACTED], acting as incorporator, officer, and President.
- A complete transition of the nonprofit structure was initiated, with matching IRS EIN continuation, trademark abandonment rescission filed, and ownership reassignment underway via USPTO ETAS.
- A formal Declaration under Penalty of Perjury was executed by me (April 28, 2025), attesting to my sole legal responsibility for these actions and confirming that neither Joseph [REDACTED] nor Parker [REDACTED] is involved in the ongoing filings or corporate control.

This fully satisfies the reversion clause contained in the custodianship agreement. Therefore, Parker [REDACTED] authority expired on or before April 26, 2025, and all intellectual property rights reverted immediately to the undersigned under the new legal structure.

III. LEGAL CONSEQUENCES OF UNAUTHORIZED ACTIONS

On April 22, 2025, Mr. [REDACTED] submitted a trademark abandonment request to the USPTO for both marks listed above. This action was executed without written authorization from either Joseph Matthews or myself, in direct violation of the signed custodianship agreement.

Accordingly, the abandonment is being contested, and a rescission request has been submitted under current USPTO procedures.

Mr. [REDACTED]'s role as custodian did not confer any legal ownership, and no power to abandon, license, or transfer the trademarks was ever granted. These facts are memorialized in writing and have been supported by corporate filings and sworn statements.

IV. CURRENT LEGAL CONTROL

As of the date of this memorandum (April 28, 2025):

- 50501 Inc. is the only legally recognized entity acting in stewardship of the trademarks.
- I, Joshua [REDACTED], am the President and sole fiduciary authority over 50501 Inc.
- All relevant documentation (filings, declarations, USPS receipts, incorporation confirmations) are retained and available for audit or submission.
- All legal actions taken regarding the intellectual property are being executed by me, under federal and corporate law.

V. CONCLUSION

The authority granted to Parker [REDACTED] was temporary, conditional, and revocable.

All stated conditions for its termination have been satisfied.

As such, full control of the 50501 intellectual property has legally reverted to 50501 Inc., under my direction.

Any attempt to contest, transfer, license, abandon, or “open-source” these marks by any unauthorized party will be met with full legal action, including motions to USPTO, injunctive relief, and applicable federal complaints.

Respectfully,

[REDACTED]

Joshua [REDACTED]
President, 50501 Inc.

[REDACTED]
