

Statement of Founding and Entrustment

Affirmation of Founders and Stewardship of the 50501 Movement

WHEREAS, the grassroots movement known as “50501”—anchored in the call for *50 Protests. 50 States. 1 Day.*—emerged in January 2025 as one of the most widely decentralized and unifying mobilizations in modern American activism;

WHEREAS, the first public articulation of the idea was issued by Seth [REDACTED] (known online as “evolved_fungi”) on January 25, 2025, in a public Reddit post titled “*How Can I Help? Q&A,*” in which he invited others to adopt, adapt, and spread the vision of a national decentralized protest to defend democracy and resist fascism;

WHEREAS, this post catalyzed what would become a massive nationwide effort culminating in hundreds of self-organized protest events on February 5, 2025, at State Capitols across the United States;

WHEREAS, [REDACTED] and Amber [REDACTED], recognized by the activist community and the broader public as the two original co-founders of the 50501 movement, acted not as proprietors but as facilitators—lighting the initial spark of a shared idea, built to grow through collaboration, replication, and local ownership;

WHEREAS, in the interest of protecting the movement from co-option, legal vulnerability, or internal fragmentation, and to preserve the mission, brand, and decentralized values of the 50501 movement, the original co-founders have entrusted full legal and administrative stewardship of the movement to a formally incorporated nonprofit entity:

50501 Inc.,

a nonprofit corporation organized under the laws of the Commonwealth of Virginia and duly registered as a foreign nonprofit in Washington, D.C., which now serves as the **sole legal custodian** of the movement’s federal trademarks, brand identity, and governance infrastructure.

This entrustment ensures that 50501 remains a movement **for the people and by the people**, while safeguarding its public name, slogans, and values from distortion or unauthorized claim.

The founders' decision to transfer responsibility to 50501 Inc. reflects a conscious act of stewardship—not abandonment. It empowers the nonprofit to act on behalf of the movement in all legal, administrative, and representational matters, while **maintaining historical fidelity** to the movement’s grassroots origin.

Let it be known that **50501 Inc. does not claim to have created the movement**. It exists to **protect it, honor it, and carry it forward**, in alignment with the decentralized, people-powered spirit with which it was launched.

IN WITNESS WHEREOF, the undersigned affirm this record of founding and entrustment as accurate, intentional, and binding.
